

FREE Energy Train-

As part of the U.S. Dept. of Energy funded Residential Energy Code Field Study, Calhoun Community College will be offering free statewide training on Alabama’s Residential Energy Code.

Training Session:

How to Achieve Compliance with Duct and Envelope Sealing Requirements.

This four hour session is designed for code officials, builders, site supervisors, HVAC contractors, insulation contractors and anyone responsible for complying with the Alabama Residential Energy Code. The first hour will be a quick review of code requirements and the last three hours will be devoted to hands on detailed best practices for meeting code requirements, including duct and envelope sealing.

For Training Dates and Registration, visit:

www.ALenergycode.org

If you want to request a training for your organization, company or jurisdiction, please contact Ryan Meres: ryan@imt.org or 678-327-4809.

Training provided in coordination with:
